2. Product:

- ArcaVision** – A password-protected, web-based monitoring tool that provides in-depth views of general market trends, firm trading activities and analysis of those trends across markets and industry sectors.
- WebTick** – A component of ArcaVision that provides real-time and historical information about trading activity, including price, volume, high and low for selected symbols. It will also provide fundamental information about issuers, recent news and intraday, daily, weekly and monthly charting functionality.
- ArcaBook** – A real-time data feed that disseminates order book information to subscribing data vendors and users for the ArcaEx® OTC, ArcaEx® Listed and ArcaEdge bulletin board platforms.
- MarketShare Alert** – A FIX-generated message issued if ArcaEx® market share exceeds certain thresholds. ArcaEx® will issue this alert if market share in an exchange-listed security exceeds 10%, or if market share in an ETF or OTC security exceeds 40% of consolidated share volume.
- Trade Advertising** – A FIX message that enables Archipelago clients to provide post-trade data to ArcaEx®. Such data and information will include, among other things, executed trades in all market centers. ArcaEx® will make this information available to its clients via ArcaVision and/or FIX.
- Trade Through Messages** – Real-time FIX alerts generated by ArcaEx® that notify clients when another market center improperly trades through their orders on ArcaEx. ArcaEx® will generate this alert for exchange-listed securities only.
